

Smart Tools, Smoother Learning

The OLT Advantage

Welcome to OLT Australia

Discover our smart, built-in features that supercharge your learning journey. From accessibility boosters to personalised tools, we're here to support you.

1

Accessibility options

Customise your view

Did you know our *change animation to text* function allows you to convert any on screen animations to text (and vice versa) giving you greater control of how you study the course?

Enhanced accessibility features

Located at the top of every page for easy access:

- BA** Choose a dyslexia-friendly font to improve readability
- SR** Enable screen reader compatibility or convert animations to just text
- BC** Adjusts background colours for those with visual impairment
- HC** Switch to high-contrast mode
- CC** Subtitles and transcripts provided for videos

GAP Workbook

Smarter goals and interventions

Have you tried the GAP Workbook yet?

Think of it as a handy personal assistant for learning. GAP can further support you with the use of AI (Madge) to make SMART goal planning that bit easier..

2

3

Course notes facility

Capture your thoughts

Your built-in digital notebook. Jot down thoughts, highlight key points, and copy text directly from the course. Organise your learning journey effortlessly. Access your notes anytime, making review and reflection a breeze. It's your personal learning companion.

Even more features! →

Help at your fingertips

Just ticket and click!

Got a question or noticed something amiss? Raise your hand digitally! Our friendly support team is just a ticket away. Easily submit your queries about course structure, layout, or any issues. We're here to help you promptly.

4

5

Impaired friendly design

Learning for everyone

H1

Our content is structured with clear headings, alternative text for images, and properly labelled form fields to ensure a smooth learning experience for all users.

Listen Option

Learn on the Go!

Listen on the go with our listen feature for course pages. Available on most tutored courses and select short courses, this tool brings your learning to life through audio:

- Click to activate a small, auto-play audio player
- Hear content read aloud, including text and descriptions of animations
- Perfect for auditory learners or studying on the move
- Look out for our listening icon (we're continuously expanding this feature across our course catalogue)
